

PQ818 / WQ818

## Powerful Pastel Colors lightings

Rainproof : PQ818

Indoor : WQ818

A powerful Pastel colors projector to light facades or stages over a long range. It has a low consumption, high luminance, it is stable and has a long lifespan.

The 4-in1 LED types (Red Green Blue-White) allow for a perfect color rendering and a palette of 16 664 colors.

This projector has an internal power supply (110V-220V). It is pre-wired in order to be linked together upon installation. Fasteners are adjustable.

## DMX : precision sequencing

A 4-buttons keyboard at the back and a digital display help you select the master/slave mode and set the DMX512 addressing among 3 to 9 channels on each projector.

In autonomous mode one can select : 0 % - 100 % intensity per color, flashing, crossfading, color jumps.

## Technical Datas

Power supply : AC 100V-240V/50-60HZ

Power consumption : 120W

LED type : 18 x LED RGBW 4 in 1 of 8 W each

PWM variator : >400HZ permet 16666 levels of grey

Estimated lifespan : 50000 hours

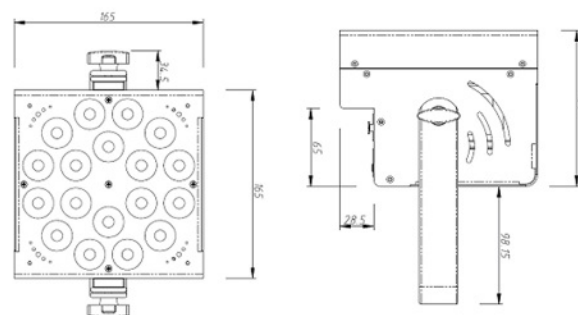

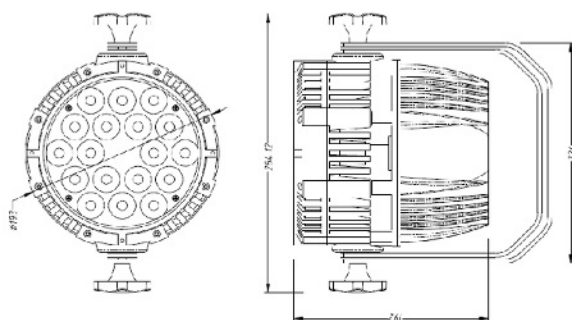

Modes : Autonomous - Master / Slave

Lens angle : 25°, 45°(upon ordering)

Outdoor model PQ818 : IP65 ; Weight : 6Kg

Indoor model WQ818 : IP20 ; Weight : 3,7Kg

Fan cooling (indoor model)
