

Architectural Projector RVB DMX 120W

LED 420C

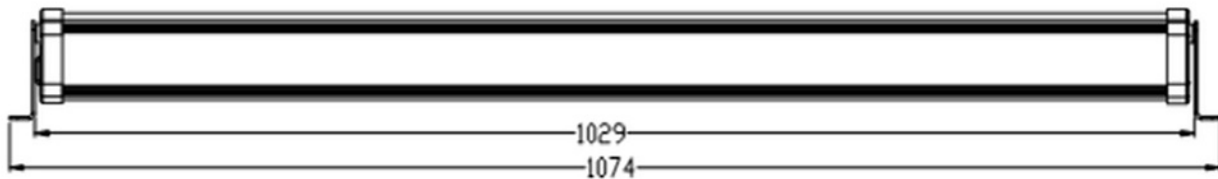

Up to 15m range in colors

With the included DMX 512 interface, you can decide what color sequences you project on your walls or on a stage.

You can also run programs from the command buttons at one end of the fixture.

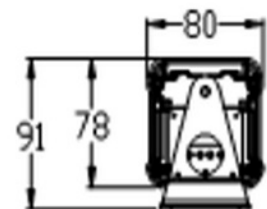

Technical Datas

These high quality LED lightings make do for a low power consumption and a strong intensity as well as long life.

Each RGB LED intensity can be set to 256 levels. It provides 16,7 million colors. The included controller can set intensity, flash mode, crossfading and color jumps.

36 RGB LED 3W each

The DMX512 controller (13 channels) includes 4 buttons to set an address via a LED display. It also sets the autonomous mode and its functions. The 110V / 220V power supply is included. Projectors are prewired to ease chain-cabling. Orientable fastenings
